Help the world.

What's Help Coin?

We live in a society where a bit have many and many have a bit, It's only know we got used to observe day-by-day and not at all in the country.

Actually exists a large number of institutions that arise from particular ideas from charity in the world, some of that is famous and some not.

Knowing that, We of the Help Coin decided to create this token seeing to help financially NGOs, needy communities and social projects.

We will take advantage of the growth of cryptocurrencies to seek change in the world of those who suffer from inequality.

Starting from this point, all who partipate and help our project, besides helping who reallys needs will help yoursel.

With immeasurable profit just after our launch.

Help the people.
Help the humanity.
Help the world.

Donation Process

For all these donations to happen, we will create a wallet with 100% of auditable public address in which we will send 15% after finalizing the pre-sale.

Starting from this wallet, we will realize a small monthly sale so we can help the most disadvantaged and needy.

Ps: the first pre-sale will happen 30 days after the launch in the Pancakeswap.

The community will decide the NGO, community or social project will be directed the donation through our social medias.

We will always looking for the greatest possible transparency, all the donations will be registered and can be accompanied for all, with the intuitive to attract the most public to participate from our project!

Beside the donation form we said before, we will have a social project, where will be organized through the social medias, "Help Hour" will be the moment where all the participants can donate the value he want.

Help the people.
Help the humanity.
Help the world.

Why Help Coin?

Probably you is asking your self "why should i invest in Help Coin?" and definitively we have the anwer from your question!

Your profits will arise together with our coin, having the participation in our project, the sky is the limit, because will not have limits. In addition to participate with the cause what will change thousands of needy peoples, you can change your life too!

We have predictions very optimistic from our project, according the donations are performed, we will have a better vision relationed of cryptocurrency and outside too, making new participants and elevating or value social and capital.

After our official launch, we will search new partners with the same objectives, search a list with big brokes centralized and create our exchange, all with the intuited to give us more visibility.

Help the people.
Help the humanity.
Help the world.

Burn after pre-sale

After our pre-sale we will realize a burn of the remaining tokens, searching from deflation of our crypto, so all the investors who have been in the pre-sale, will have the advantage with the one of the most valuable market when the same be launched and the negotiations will begin to start.

50%
of the supply sold!

guessing 50% will be sold (5 billions) and will remaining 5 billions of coins, where 5% (250M) of remainigwill go to the team, 15% (750M) will go to the wallet of donatinons, 20% (1B) will go to liquidity of the coin and the remaining will be burn, in other words we will have about 3 billions burn in this hypothesis.

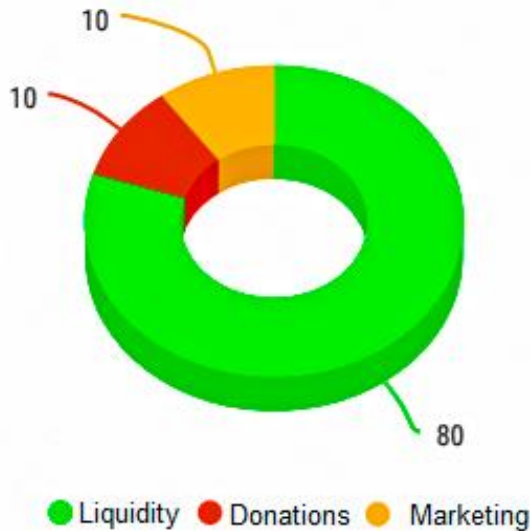

Help the people.
